Some law-abiding gun owners believe that our Second Amendment Rights and Freedoms are “safe” because we have President Trump in the White House and we have a majority in both houses of Congress. While we have a slim advantage, we need now, more than ever, to stand firm and make our voices heard loud and clear in Washington. Time is short and mid-term elections could be game changers.

Top Ten most egregious Firearms Legislation being considered in the New York State Legislature

Senate & Assembly Bill Numbers A00929 – A02228 – A02774 – A04085 – A00346 – S0513 – A03376 – A01210 – A03021 – S01358. If you copy and paste the bill numbers on the NYS Website it will pull up the information concerning the law before the Senate or Assembly. The Second Amendment states “A well-regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.” Citizens from Britian, Australia, New Zealand, and other countries recently lost the right to keep and bear arms and that should be a warning to Americans not to let the same in the United States.
